## Description

### AEG 60cm Freestanding Cooker – Versatile Cooking Companion

Introducing the AEG 10369GN-MN 90cm gas hob and oven, your ultimate kitchen companion for an exceptional culinary experience.

#### Precision and Power on the Gas Hob

The hob has five burners and a design that caters to your diverse meal prep needs. This burner assortment ensures you have the ideal heat source for every cooking task, from simmering to boiling and everything in between.

The 4.0-kW Triple Crown burner is a versatile addition, compatible with AEG's wok support for stir-frying, steaming, or deep-frying. The heavy-duty pan supports are resilient to wear and provide a stable stovetop platform.

#### Multi-Function Oven – Enhance Your Culinary Expertise

The 116-liter cavity has a temperature range of up to 240°C, offering complete control when baking, roasting, or grilling dishes. The double-layered glass cavity door provides insulation and a clear view of your dishes. With five shelf positions and grid runners, you can easily adjust the configuration to accommodate different dishes and cookware.

The 10369GN-MN's range of functions includes grilling, fan cooking, and a multifunction mode. Using the turnspit with its unique angled design, you can evenly roast meats, like kebabs, pork loins, and whole chickens.

## Safety and Practicality

Safety is paramount, and the cooker has a flame-failure safety device, providing peace of mind during operation.

The catalytic cleaning feature is popular among AEG cooker owners. The cavity's self-cleaning wall coatings absorb the appliance is on. As a result, cleaning the stove is a quick, effortless process.
